Good afternoon, Corrections Liaison Partners:

I am writing to include documents for your situational awareness. The documents are classified Unclassified//For Official Use Only//Law Enforcement Sensitive; please treat them as such.

1. (U//FOUO//LES) Intelligence Summary, Intelligence Analysis and Language Translation for International and Domestic Terrorist Inmates, Federal Bureau of Prisons (April 6 2018).

(U//FOUO//LES) This document provides information about several issues that may also be happening in your facilities, including:

- ✓ An inmate found with pages of *Dabiq* magazine. *Dabiq* is the online recruitment magazine for ISIS. ISIS changed the name of the magazine to *Rumiyah*. Mail the inmate attempted to send with these documents was disallowed. (pages 4-5).
- ✓ An inmate provided his biography and story about his conversion to Islam to a Pen Pal service. In his biography, in addition to his story of conversion, the inmate also provided articles, one of which was entitled "The Cure of the AmerKKKan Disease." Such writings may be seen as an attempt to inspire others to a violent path, as he closed the article by stating, "I am just a poor slave of Allah, whether I live or die, Jihad will continue." (pages 14-16)
- ✓ An inmate attemptd to send correspondence that may have included an encrypted message. The inmate is affiliated with ISIS. The inmate's letter included a numeric code (1948=22), which was sent to the FBI's Cryptanalysis Unit. The analysis was inconclusive. (page 19)
- ✓ Inmates are using the mathematical sign "not equal to" as a hate symbol for white supremacy (page 24).
